1. Program Overview

Kyoto University will celebrate its 125th anniversary in 2022. Since its establishment in 1897, the university has endeavored to provide high-quality education and advance the frontiers of scientific research. Through its general and specialized education programs, it seeks to cultivate global leaders for the 21st century.

Since its foundation, the university has maintained a tradition of respecting and encouraging academic freedom—a tradition which is at the heart of the Kyoto University International Undergraduate Program (Kyoto iUP), an innovative new undergraduate program for international students.

Kyoto iUP comprises a six-month preparatory course followed by a four-year undergraduate course. In the first two-and-a-half years, students develop an essential understanding of core subjects in both English and Japanese, and acquire sufficient Japanese language proficiency to attend specialized lectures and pursue advanced studies in Japanese in their final two years.

In addition to cultivating language proficiency and a multicultural mindset, the four-and-a-half-year program is also designed to encourage students to exercise initiative and develop flexible thinking. Upon completing the program, students will have in-depth expertise in their chosen field and an extensive understanding of the world. These qualities open the doors to leadership roles in various sectors of international society.

Kyoto iUP students receive comprehensive support during all phases of the program, benefiting from the experience accumulated by the university throughout its long history of fostering international students from around the globe and supporting them in their studies, research, daily life, and career development.

Key Features and Details

➤ **6-month Preparatory Course and 4-year Undergraduate Course**

Kyoto iUP comprises a six-month preparatory course and a four-year undergraduate course. Upon graduation, Kyoto iUP students will be awarded a bachelor's degree in their selected major.

➤ **Choose from a Wide Range of Faculties**

Students on the program can enroll in any of the faculties and departments listed in Table 1 (on the following page). Applicants should select a faculty/department appropriate to their academic interests. If they are interested in more than one faculty/department, they can provisionally select up to three faculties/departments at the time of application. Their preferences will be discussed during the interview, and when they receive the notification of the second screening result, they will also be notified of the faculty in which they will enroll. They will be formally enrolled in the faculty after they have passed the Qualifying Test, which is taken after the Preparatory Course.

Table 1: Available Faculties *1

Faculty	Department
Faculty of Integrated Human Studies *2	- Social Sciences and Humanities - Natural Sciences
Faculty of Education	
Faculty of Law	
Faculty of Economics	
Faculty of Science *2	- Mathematical Sciences - Physics and Astrophysics - Earth and Planetary Sciences - Chemistry - Biological Sciences
Faculty of Engineering *2	- Civil, Environmental and Resources Engineering (formerly known as Global Engineering) - Architecture - Engineering Science - Electrical and Electronic Engineering - Informatics and Mathematical Science (Computer Science) - Chemical Science and Technology (formerly known as Industrial Chemistry)
Faculty of Agriculture *2	- Bioresource Science (Agricultural Biology) - Applied Life Sciences (Agricultural Chemistry) - Agricultural and Environmental Engineering - Food and Environmental Economics - Forest and Biomaterials Science

*1 The program does not currently offer enrollment in the Faculties of Letters, Medicine, or Pharmaceutical Sciences.

*2 Applicants seeking to enroll in the Faculties of Integrated Human Studies, Science, Engineering, and Agriculture must specify the department(s) in which they wish to enroll at the time of application.

➤ **No Japanese Language Proficiency Required**

Japanese language proficiency is not required at the time of application. Students will be provided with intensive Japanese courses in the first six months of the program, followed by two years of advanced courses. Students will then have sufficient proficiency to attend regular undergraduate course lectures and seminars in Japanese from their third year.

To applicants:

Applicants must have a strong motivation to learn the Japanese language in order to gain the proficiency required to understand classes in their chosen subjects taught in Japanese.

➤ **Online Application**

The admission process comprises of two simple steps: document review and interview. The application procedure, including the submission of documents, will be conducted online via the Online Application System. The interview will be held online or in-person.

➤ **Qualifying Tests**

Students who perform sufficiently in the Japanese language studies and essential subjects of the Preparatory Course can go on to take the Qualifying Test prepared by the faculty specified in their admission offer. After passing the Qualifying Test, the students can proceed to study in the faculty.

After enrollment

Kyoto iUP students will be enrolled in the faculty as regular undergraduate degree-seeking students. In the first two years of the program, they will study liberal arts courses and major subjects of their choice in English and/or Japanese with other degree-seeking students. This will be followed by two years of specialized education in their chosen major subjects, which will be taught mainly, or exclusively, in Japanese.

➤ Scholarships and Support

Scholarships that provide full or partial admission/tuition fee waivers and monthly allowances are available. Accommodation in Kyoto University's Hyakumanben International House (dormitory) is available for the first two years of the program.

Number of Places

25 students will be admitted in October 2022. They are expected to complete the four-year undergraduate degree course in March 2027.
